Printing

In the interest of long term sustainability and the conservation of our planet each student has a printing limit of 30 sheets of paper per week (up to 60 pages double side printing and 30 pages single side printing).

Once the 30 page limit has been reached you can utilise the Macquarie library for further printing.

Default setting for all printers is to print double side. Please keep this in mind when you are printing in the labs.

Whilst our demonstrators are there to help with all your needs in the labs, they are unfortunately unable to increase your printing limits.
