iLearn

Access iLearn

- Log into ilearn at https://ilearn.mq.edu.au
- Your iLearn username will be your SIBT student id.
- Your iLearn password will be your SIBT portal password. Note that your password are CaSe SeNsIvE.
- If you can’t log in after ensuring you have entered your username and password correctly, you should contact our computer lab demonstrators in lab E3A167 or lab E3B119.

Can't see your unit once you've logged in?

If your unit is shown as available and you enrolled in the unit more than 48 hours ago, then you should email Academic.Ateam@sibt.nsw.edu.au to check if there is a problem. Please state your name, student number and the problem in your email.

What happens with a unit that I un-enroll from and the new unit that I enrol myself in?

Your unit that you un-enroll from will remain in your iLearn site, as iLearn does not check the student’s enrolment status. So, if you are no longer enrolled in the unit, you can just disregard that iLearn unit.

Any new unit that you enroll yourself in, will take 48 hours to appear in your iLearn page.

If you still can’t see your unit after more than 48 hours, then you should email Academic.Ateam@sibt.nsw.edu.au to check if there is a problem. Please state your name, student number and the problem in your email.
Browser Requirements

In order to access resources and activities in your iLearn unit, you will need a browser such as Firefox or Chrome. iLearn will operate on the following browsers, it is recommended that you upgrade your browser to the most recent version:

- Firefox
- Chrome
- Safari
- Internet Explorer 8 or later

If you experience problems with material not working after you have logged in or it seems to work but you get error messages, then there are two possible reasons:

1. you might not be using a suitable browser;
2. There might be a problem with the online material. Tell your Lecturer.

Internet Access

You can access your online unit from anywhere on the Internet. Access to the Internet is available on campus, through an Internet Service Provider (ISP), some local libraries, or Internet cafes anywhere in the world. If you can get to other sites on the Internet, then you should be able to access your online units.

Discover iLearn for Students

If you are new to iLearn you may like to use this iLearn unit as a place to familiarise yourself with some of the features iLearn has to offer. There are practice activities like Quizzes, Assignment Submissions, Blogs and more. You can use these activities to acquaint yourself with how the system works. Student Mentors are on-hand to facilitate the unit so you can 'chat' with them there about anything iLearn related.

Logging Out

When you have finished using the site you must log out, or exit or quit your browser. To log out of iLearn, click the 'logout' link near the top right of the screen. If you don't log out, or exit or quit your browser, other people can continue to use your account.
